Q: Student

A: BLOOM365 Advocate

Q: Why do people believe generation z will change the world?

A: There's a lot of reasons people believe that Gen Z will change the world, but one main reason might be that a lot of young people in this generation are vocal and active about several important issues, such as climate change, gun laws and safety, and even immigration reform. Gen Z also has the benefit of modern technology that keeps them in touch with all kinds of people from many different places that have many different experiences that some previous generations didn't have access to while growing up.
